# From the Desk of DG

***Seventeen years ago,*** CSRL began with a simple yet profound mission: to *empower young minds and provide them with the opportunities and* support needed to build meaningful careers. What started as a single centre, driven by the hope of creating change, soon expanded to three, and today, we proudly operate thirty-one centres across the nation.

This growth has been nothing short of extraordinary, and it stands as a testament to the power of a shared vision. Each milestone we've achieved has been built on the foundation of trust and collaboration. From our committed team members to our visionary partners and, most importantly, the students who dared to dream, every step of this journey has been a collective
effort.

With every new centre, every success story, and every challenge overcome, our mission and vision have only grown stronger. It is heartening to see how many of you have believed in us and joined hands to make this vision a reality. Together, we've not only helped students excel academically but have also inspired them to become change makers in their communities.

As we celebrate years of impact, we take special pride in acknowledging the centres that have successfully completed more than a decade of operations. These centres have been pillars of excellence, nurturing talent and producing countless success stories year after year.

Their journey is a reflection of our collective resilience, dedication, and the transformative power of education.

As we honor the past and look to the future, we see a horizon filled with opportunities. Our mission is far from over; in fact, it is only gaining momentum. Together, let us continue to push boundaries, innovate, and inspire. Let us turn every challenge into an opportunity and every opportunity into a success story.

***Thank you for being an integral part of this journey.***

# The Art of Leadership: Empowering Lives

Mr. Krishnamurti Singh
Director (Operations)

Leadership is often considered as a virtue of authority or titles. In my experience at CSRL, true leadership is about service and creating a space where people can realize their potential. It is about fostering transformation—not just of individuals but of entire communities.

At CSRL, our vision is clear: to empower underprivileged students through education. A leader's role is to ensure that this vision lives in the hearts of everyone involved. When people feel connected to the larger mission, they are motivated to go beyond themselves. Empathy is at the heart of this process.

Leadership is about understanding the stories of those we serve and those we lead. Every student and team member brings unique experiences that shape their potential. When a leader listens, they can truly help others thrive.

Another essential element is leading by example. I've always believed that actions speak louder than words. When your team sees you uphold the values of integrity, discipline, and perseverance, it sets the tone for the entire organization. Leadership isn't about giving orders—it's about being a role model.

Finally, leadership is about resilience. Challenges are inevitable, but how we respond to them defines us. At CSRL, every obstacle has strengthened our commitment to our mission. Leadership is about overcoming adversity and continuously pushing forward.

Ultimately, the legacy of a leader is in the lives they impact. At CSRL, we are not just building futures—we are empowering dreams. That, to me, is the essence of leadership.

# A Journey of Purpose and Perseverance : From Outreach to Establishing a Legacy

Ms. Meenakshi Shahi
Director (BD, Communication & HR)

*Dear Readers,*

Looking back at the journey of CSRL, I am reminded of how far we have come from our formative days. In our first year, the focus was clear but daunting—reaching out to identify the right beneficiaries, students with immense potential but limited opportunities. We structured the 11-month model into an impactful project such that it would cater to the holistic development of these young minds. What began as an earnest effort to make a difference has evolved into a powerful brand that now stands shoulder-to-shoulder with the giants of the coaching industry. Establishing ourselves in such a competitive space was no easy feat.

It required not just excellence in academic preparation but also a commitment to staying deeply connected to our beneficiaries. This unique approach—listening, understanding, and walking alongside our students on their journey—became our greatest strength, our USP, and the reason why we stand out in this crowded industry.

As with any journey worth taking, ours was not without its share of challenges. Observing gaps, reflecting on failures, and consistently working to improve have been integral to our growth. Each step was a lesson, reinforcing our belief that transformation is possible when vision is met with hard work and empathy.

Today, CSRL is a name that resonates not just with success but also with hope and empowerment. This journey would not have been possible without the unwavering support of our team, partners, and most importantly, our students. As we move forward, we remain committed to nurturing talent, fostering excellence, and creating lasting impact in the lives of many more.

GAIL (India) Limited

## GAIL Utkarsh Kanpur

GAIL Limited, a trailblazer in energy, extends its vision beyond business by transforming young lives through education. In 2009, it became the first PSU to support a residential learning centre, GAIL Utkarsh executed by CSRL. This initiative's success inspired expansions, including a JEE centre in Haldwani and an all-girls STEM-focused centre in Varanasi in 2021.

Every year, GAIL Utkarsh empowers over 100 talented students from economically challenged backgrounds, fostering dreams of IITs, NITs, and more. With over 1,800 lives touched and alumni earning an average starting salary of ₹8 LPA, GAIL proves education is the most powerful energy of all. 🌟

## OIL Pragyan Super 30

Since 2010, Oil India Limited (OIL) has transformed lives through the OIL India Super 30 program, empowering underprivileged students to excel in JEE and NEET. Starting with its first centre in ***Guwahati (2010), OIL expanded to Jorhat (2011), Dibrugarh (2012), Jodhpur (2014), Itanagar (2015)*** and beyond, now supporting six centres across India.

With over 2,000 students benefitting, including 500+ admitted to IITs and NITs, and success rates as high as 80%, OIL continues to inspire and nurture the next generation of innovators and leaders.

## ONGC Super 30

Since 2014, ONGC has partnered with CSRL to transform education through the ONGC Super 30 program, expanding from a single centre to five active centres across India.

The program boasts an impressive 89% success rate in engineering, with 74 students placed in IITs, 190 in NITs, and many more in prestigious institutions. In the medical stream, 28% of students secured admissions, including 45 in MBBS.

With a vision to empower underprivileged youth, ONGC continues to pave the way for brighter futures, fostering excellence in both engineering and medical fields.

***Sivasagar (2019-20)***

I am deeply honored to share my journey, which began at CSRL Super 30, Sivasagar, a pivotal moment that changed my life. Growing up in a humble background, with my father working at a small cycle shop to support our family, I was determined to pursue engineering. Thanks to CSRL's guidance, mentorship, and a collaborative learning environment, I gained the confidence and discipline to face challenges, eventually securing admission to NIT Rourkela for Electrical Engineering. Today, as an Assistant Manager at ITC Ltd. (Foods Business Division), I'm proud to contribute to cutting-edge projects, and I owe much of my success to CSRL's unwavering support.

Coming from a modest background, my journey with CSRL has been transformative, shaping me into who I am today. CSRL provided free residential coaching, instilling discipline, perseverance, and a belief in my potential. Beyond academics, their unwavering support and dedicated mentorship empowered me to dream big and achieve what once seemed unattainable. Today, as a civil engineer contributing to the construction of Noida International Airport, I owe much of my success to CSRL. They are more than an organization; they are a family that nurtures talent and creates change-makers, proving that a little support combined with resilience can truly transform lives.

***Civil Engineering, NIT Arunachal***

Belonging from Zedua village in Longding district, Arunachal Pradesh life hasn't been easy—I lost my father when I was 12, and my mother single-handedly raised me and my two younger sisters. Growing up, I spent most of my time in hostels, only visiting home during vacations.

After finishing school at Ramakrishna Mission School, Narottam Nagar, I faced a tough setback when I couldn't secure admission to a government engineering college. Initially, I wasn't planning to take a drop year, but joining Oil Pragyan Super 30 changed my life. The program provided exceptional teachers, a family-like atmosphere, and rigorous preparation that helped me secure admission to NIT Arunachal Pradesh, where I am now pursuing Civil Engineering.

I will forever be grateful to CSRL and Oil India Ltd. for giving me this life-changing opportunity. Their support has not only transformed my future but also helped countless other students like me achieve their dreams.

***Software Engineer-1 (CISCO , Bengaluru )***

Reflecting on my transformative journey with CSRL, I am reminded of the invaluable mentorship, outstanding academics, and life lessons that shaped my path.
The coaching and guidance I received at Super-100 not only helped me secure a seat at NIT Bhopal for Computer Science and Engineering but also laid the foundation for personal and professional growth. At NIT, I excelled academically while honing leadership skills as Head of Sponsorship and Marketing at ISTE, MANIT. The principles instilled by CSRL enabled me to balance rigor with responsibility, preparing me for the challenges ahead.
Even during challenging times, the support of Devendra Sharma Sir, our Chief Project Officer, was unwavering. His timely advice helped me regain focus and confidence when I needed it most.
With consistency and hard work, I secured a placement as a Software Engineer at CISCO, Bengaluru. Today, I proudly credit CSRL for not only providing excellent academic preparation but also for fostering leadership, discipline, and confidence in its students.
As I embark on this exciting new chapter, I remain committed to the values instilled by CSRL and hope to inspire others by sharing my journey. Thank you, CSRL, and Dev Sir, for your constant support and mentorship.

## FROM DUST TO DIAMOND

***Divyangnaa Gupta***
***Alumni Prabal Army Super 50, PUNE***
***Batch: 2022-23)***

With my wandering mind and wavering thoughts, I came to PRABAL ARMY SUPER 50. After all it was my thirst for being out of my home & staying alone.

With dreams in my eyes and potential in my soul, CSRL gave me wings & have transformed me from a person into a personality and taught me how to work hard for one's dreams and make them come true.

Never can I thank my teachers enough and my dear Management, for giving me this wonderful experience, which is one of the best in my life, I have had till now.

In future, I would like to carry this legacy further and continue to give back to society. My best wishes to CSRL, to give us this opportunity & pray to continue this good work.

CSRL Dibrugarh Learning Centre started its journey from 2013 – 2024 batch onwards under the leadership of our Founder & Mentor Late S. K. Shahi Sir. At present 12th batch (2024-2025 session) is going on. Its a great honour and privilege for me to be a part of this CSRL family. As a Sr. Project Manager of Dibrugarh centre, this is my four batch (as I joined the organisation on 2nd August 2021).

CSRL is doing a great job to the society by providing a great opportunity to the under privileged students, to fulfil their dreams. During the last twelve years Dibrugarh Learning Centre had helped around 360 students to fulfil their dreams and establish in their professional life. Most of the students are in the top IITs / NITs / IISER to build their career. CSRL played a pivoting role in their upliftment & played a major role in transformation of their lives. If CSRL was not there, most of the financially backward students could not make it for the IITs or NITs.

Apart from the mentoring support for eleven months, CSRL had helped the students by providing scholarship facilities also. This helped the students to a great extent in their B.Tech.

I am thankful to the Directors and other colleagues of CSRL family for their unconditional support & encouragement which help us continue our work in an effective manner.

My journey in CSRL starts as a student. It was 2017 when I got admission in CSRL OIL INDIA SUPER30 Nagaon. We were the first batch of that center. That one year was one of the best experiences of my life. I felt quite lucky to have the chance to pursue my dream into reality through this organization. CSRL is one of the best organizations that provide free residential coaching to many underprivileged and meritorious students. Now, after six years joining back to this organization as a trainee faculty gives me a whole new set of experience. Being part of the working team and as a mentor to the students I try my best to do my level best. My experience as a student always gives me the idea to connect with the students, their problems and difficulties during their journey. I am still and always being grateful to the CSRL. Though this debt cannot be paid off, but I will put all my efforts and will always work with honesty for the betterment of students and the organization.

# A Father's Pride, A Family's New Beginning

My journey as a father has been one of relentless struggle and sacrifice, fueled by the hope of a brighter future for my son. Running a small roadside cloth vending shop, I barely earned enough to make ends meet, let alone provide quality education. When the cost of JEE coaching seemed insurmountable, the ONGC Super 30 program by CSRL became our beacon of hope. Their unwavering support, dedicated mentorship, and rigorous preparation transformed my son into a confident and capable young man. He not only cracked JEE Advanced but also graduated from NIT Silchar in Mechanical Engineering, ultimately securing a job at Oil India Limited. Today, as I witness his success, I am filled with immense pride and gratitude. CSRL didn't just transform my son's life—it uplifted our entire family, giving us hope and a brighter future. Thank you, CSRL, for believing in us and empowering countless dreams.

In 2014, my son dreamed of becoming an engineer, but our financial constraints made private coaching unattainable. Enrolling him in a government junior college seemed our only option until we discovered the CSRL Oil Pragyan Super 30 program at Jorhat. My son's selection marked a turning point in our lives.

Under the mentorship of Sukanya Madam and Bhushan Sir, he not only excelled academically but also gained confidence and clarity. Their guidance led him to achieve admission at IIT Guwahati in Mechanical Engineering—a moment of immense pride for our family.

Inspired by his success, my younger son also joined the Nagaon Super 30 Centre and is now pursuing engineering. What makes this journey even more special is that my elder son has returned to CSRL as a Physics faculty member, giving back to the institution that shaped his future.

CSRL didn't just help my sons achieve their dreams; it created a legacy of learning and mentorship. As a father, I am forever grateful for the transformative impact of CSRL on my family's life.

## American Society of Mechanical Engineers Program

CSRL Kanpur Learning Center had the privilege of hosting a session in collaboration with the ASME team, featuring esteemed guests: Ms. Stephanie Viola - Managing Director, Programs & Philanthropy, ASME; Ms. Karen E. Russo - Senior Director, Strategic Communications, ASME; Ms. avni malhotra - Deputy Director; along with CSRL's leadership team, including Mr. Krishnamurti Singh, Director (Operations), and other key members.

In true Indian tradition, we welcomed our guests with a tilak ceremony, symbolizing respect and hospitality. The session, attended by 100 students of GAIL Utkarsh, provided valuable insights into opportunities within mechanical and core engineering branches. The ASME India (The American Society of Mechanical Engineers) team also highlighted the growing role of AI and Data Science in mechanical engineering.

The students actively participated in an engaging project on building a Water-Powered Car and enjoyed activities that emphasized teamwork and innovation. The event was a great success, equipping the students with valuable knowledge and skills for their future careers.

## Visit and Interaction at IPPL Kolkata Super 30 by Mr. Ashutosh Gupta and Ms. Debjani Bose

We were honored to host **Mr. Ashutosh Gupta, CEO of IPPL**, and **Ms. Debjani Bose, HR Head of IPPL**, during their recent visit. Their interaction with students and faculty was truly inspiring, emphasizing the importance of industry-academia collaboration. Their valuable insights and encouragement have left a lasting impression, reinforcing our shared commitment to nurturing future leaders.

## Safety First: Fire Drills for Students

Fire drills were conducted at all centres as a vital step in ensuring student safety and preparedness. These drills help familiarize students with evacuation procedures, emergency protocols, and the importance of staying calm under pressure.

## Yoga for Holistic Health and Well being

Ms. Geetika Singh, a seasoned Life Skills & Parenting Coach, Yoga Therapist, and Mental Health Expert, conducted a rejuvenating yoga and therapy session at National Super 100 Delhi. With over 12 years of experience, she guided students through yoga postures, breathing techniques, and mindfulness exercises to reduce stress and improve focus. Her insights on mental health and personal growth left students feeling refreshed and motivated.

## SHIKSHA KE MADHYAM SE SAMAJ PARIBARTAN: CSRL KA PRAYAS

CSRL is not just a word or an organization; It's a family of deep emotions rooted deep inside the heart of many associated with it. We, as a family, are celebrating achievements of the 10 prestigious centres for completing the glorious ten years, producing marvelous doctors, engineers, and most importantly, building a better world and conserving humanity.

Talents and brilliant minds are given a platform, preventing their destruction in the darkness of poverty. Transforming lives, giving wings to hopes, building good humans for the last ten years and many more in the future are their deeds the world is witnessing.

## Glory of CSRL

From dream to reality
Not an organization, but a family,
Shaping your futures and the creativity
This is what we call CSRL and Super 30.
When path is dark and unknown,
Poverty is just shaking your bones,
There we revive brotherhood and unity,
Turning your merit into power and capability.
Success requires hard work,
As it doesn't ask for grades,
The noble journey of CSRL is successfully fulfilling its goals
Now for a decade!
Thus there is nothing to fear,
and just believe to dare,
Cause where CSRL stands,
Success begins from there!

## Thanks to CSRL ? But why ?....

Thanks for making us stay away from our family?
but yeah that is bit necessary just so we could study without any disturbance.

Thank you for putting pressure !!!
coz coal can't turn into diamond without sufficient amount of pressure.

Thank you for showing us the hardship of hostel life, a life where your mom won't do everything!!
Just so we could be prepared for our future.

Thanks for disconnecting us from most of the outside world !!
Just so we could focus on our self and only ourselves.....
Thank you to be honest..... So that I can change from "but why" to "why not"..!!!!

well CSRL is really a great organization who is putting efforts for the children who really want to achieve Something big...

Something big =) A dream they see for themselves, the happiness of their family, the feeling you wanna have when you tell your parents "ho gaya" "I did it", the tears of happiness you Want to see in the eyes of their parents.

Isn't that something way too big?
So thank you CSRL...!

## Life at Prabal Army Super-50 (One Piece-inspired)

Life isn't just about building a boat while comfortably staying on shore. It's about letting go of your fears and setting sail, even when the boat may capsize or battle the wildest waves. That's what life truly is—a journey toward the ultimate treasure of knowledge and wisdom. At PRABAL, I'm fortunate to experience a beautiful part of this voyage.

When I first arrived, the task ahead seemed impossible. My boat was in tatters—no name, no map, and no crew. That was me five months ago. But soon, I found myself surrounded by an amazing crew, one that would help me weather every storm, from the harsh winters that made sleep an impossible dream, to the endless phone calls from relatives asking, "Aur batao, kitne marks ayenge?"

This crew taught me how to sail through life's challenges, to savor every moment, and to work relentlessly. I learned to keep a burning passion in my heart, yet a cool head on my shoulders. And, of course, never forget to enjoy my meals with gratitude (Pro tip: Mess waale bhaiya se panga mat lena).

But it's not just the crew that makes this journey special. My fellow sailors—each from a different corner of life—are the ones who truly make the adventure worthwhile. The ship is filled with fighting, laughing, crying, learning, teaching, and above all, living life to the fullest as we sail toward our dreams.

PRABAL isn't just a program; it's a lifestyle. And here, at PRABAL, we're not just learning—we're transforming our lives.

# SAND AND STONE

Two friends were walking through the desert. Along the way, they had an argument, and one friend slapped the other. The friend who was slapped was deeply hurt but didn't say anything. Instead, he wrote in the sand:

**"Today, my best friend slapped me in the face."**

They continued walking, and soon they came across an oasis. After drinking from the water and feeling refreshed, the friend who had been slapped got stuck in the quicksand. The other friend quickly pulled him out and saved his life. Grateful, the friend who had been rescued took a knife and carved into a stone:

**"Today, my best friend saved my life."**

The friend who had been slapped and then saved looked at him and asked, "After I hurt you, you wrote in the sand. Now, after I saved you, you carved in the stone. Why?"
The other friend replied, "When someone hurts us, we should write it in the sand, where winds of forgiveness can erase it. But when something good happens, we should engrave it in stone, where nothing can erase it."

***The story teaches us that we should forgive and let go of hurtful things quickly, like writing them in sand, but cherish and remember the good things in life, just like carving them in stone.***

## The Mysterious Island

**You are stranded on an island with two tribes: one that always tells the truth and one that always lies. You need to find the bridge to escape, but it's guarded by one person from each tribe. You can only ask one question to either of them. What question do you ask to determine the safe bridge?**

## If Life Were a Recipe...

**What are the five ingredients you would include to create the perfect "recipe for life"?**

## Can you solve it?

```
5 3 _ | _ 7 _ | _ _ _
6 _ _ | 1 9 5 | _ _ _
_ 9 8 | _ _ _ | _ 6 _
------+-------+------
8 _ _ | _ 6 _ | _ _ 3
4 _ _ | 8 _ 3 | _ _ 1
7 _ _ | _ 2 _ | _ _ 6
------+-------+------
_ 6 _ | _ _ _ | 2 8 _
_ _ _ | 4 1 9 | _ _ 5
_ _ _ | _ 8 _ | _ 7 9
```

**Hints:**

Row 1: Look at the 3x3 grid starting at the top-left corner. What numbers are missing here?

Row 4: Notice which numbers are already present in the middle row—what fits in the blank spaces?

Column 6: Focus on filling in this column by checking which numbers are missing in each 3x3 grid it intersects.

Center 3x3 Grid: The numbers 5, 2, and 7 are missing—where do they fit?
