# *We miss you every day…*

“Compassion towards living beings is the true religion. The sheer good fortune of having human life of being allowed to spend many many years in this beautiful world of ours require us to pay some rent in lieu. Doing something nice or useful for the needy is the rent that we pay.”

# Our Founder

Mr S.K. Shahi was the founder Director-General at Centre for Social Responsibility and Leadership (CSRL), a not-for-profit organization. He founded CSRL in 2008 to focus on social upliftment of the youths of the less-privileged section of the society by equipping them to qualify for admissions into premier educational institutions through structured and free residential coaching for 11 months.

Over the last 17 years, CSRL has transformed more than 7000 lives through its flagship project CSRL-Super30. It expanded its presence from one city to 25+ cities and it got recognized both internationally and nationally. The initiative and the Super 30 model has been well accepted across the country and has been acclaimed widely.

In 2021, Harvard Business School (HBS), USA published a case study on CSRL Super30 to be taught to the class of full-time MBA students at HBS. The late Sh. S.K. Shahi has been felicitated at the highest levels in the Indian Army and the Govt. of India for his contribution to national and societal growth through this project.

A TEDx speaker and recipient of many CSR awards-'' Peak Dadhichi -Life Time Achievement Award" by Plus Approach Foundation, ''Mahatma Gandhi Samman'' by NRI Welfare Society of India, ''Dr Rajendra Prasad Award for Impactful Social work'' & Life Time Achievement Award – Education (Posthumous) in Desh Ratna Conclave. Mr Shahi worked towards eliminating mediocrity in professional activities. He dedicated the last decade to hunting the best and the brightest young talent wasting in the hinterlands of the country and sending them to premier engineering and medical institutions. He planned for his services to enable the starry-eyed boy in every village of every state in India to get whatever education she or he dreamt of.

His aura was binding. His excitement and zeal was infectious. He counted on his friends, people of all age-groups and from all walks of life. He was a believer in pure intentions and valued friendships the most. More than anything else, he was a go-getter.

One cannot say that he was here yesterday but today there is vacuum, because great souls remain eternal and live on forever. It was his dream to make CSRL, a temple of learning where every talented and ambitious student can have the facility of availing mentorship required to crack entrance examinations without much financial burden. His love and concern for young minds and their welfare had been par excellence. One can find in him the qualities of head and heart.

Even though he is not with us in his physical form, his presence can be felt through his blessings in all our endeavours.

You will remain forever in our hearts, Shahi Sir.

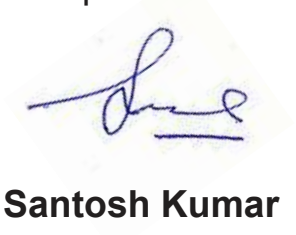

# Message from Chairman

The journey of CSRL is a narrative of unwavering commitment, resilience, and transformative impact, woven together by the vision of its founder, the late Shri S.K. Shahi. The essence of our mission lies in a simple yet profound truth: society is not an abstract entity; it is a reflection of us all. Each of us carries a responsibility toward the collective, for what we give to society, we give to ourselves. This interdependence is both a privilege and a duty, urging us to act with empathy, purpose, and responsibility.

At its heart, CSRL is about doing good—not as an act of charity, but as an acknowledgment of this shared responsibility. By nurturing the aspirations of young minds from marginalized backgrounds, we are not just shaping individual futures but also contributing to the fabric of a stronger, more equitable society. It is a testament to the belief that when one life is transformed, a ripple of hope and change spreads across families, communities, and generations.

Through education and empowerment, CSRL exemplifies that progress is not merely about personal success but about lifting others along the way. After all, society thrives when its individuals thrive, and our collective well-being depends on the opportunities we create for each other. This work is a reflection of a simple yet profound ethos: by uplifting others, we uplift ourselves, for we are all threads of the same tapestry.

**Santosh Kumar**

Chairman

# From Director General's Desk

*"Alone we can do so little; together we can do so much."*

This quote by Helen Keller beautifully encapsulates the essence of our collective efforts at CSRL. Reflecting on another year of impactful work at CSRL, I am overwhelmed with immense gratitude towards all our stakeholders and filled with great pride at the efforts of my CSRL colleagues and the CSRL family.

The Organization's commitment to serving the society and fostering positive change, in line with the founder Late Mr. Shahi's vision, has never been more substantial. The superlative achievements of our beneficiaries testifying their distinct stride along the transformation path, bears testimony to the above. One is truly humbled by the experience of seeing the students of very humble background break glass ceilings and realizing their dreams while being a small part in the process as a member of the CSRL family. I am confident that this feeling transacts across the chain of CSRL stakeholders consisting of our Sponsors, our large group of well-wishers, our guiding force - the CSRL Board members and our truly energetic and competent group of employees.

The publication 'Transformation Index (TI)' presents a glimpse of the Organization's Journey since its inception and highlights the major achievements along the years. It is also a testimony to the love and affection we have received from our benevolent sponsors to help us make a positive contribution towards a better Society. This is a never-ending process and we at CSRL are committed to continue to remain a part of the process for all times to come. I am confident that the TI will provide each and every reader with something to be inspired by.

Looking forward, I am optimistic and convinced that together, we will continue to navigate challenges, overcome barriers, and grow from strength to strength. The smiles of achievement in the faces of our beneficiaries when they feel empowered through our efforts will continue to remain our biggest motivator and their transformation our collective achievement.

The TI also provides us with a platform and an opportunity to formally express our heartfelt gratitude to each and every stakeholder for his / her contribution towards a successful transformation journey and making a difference. On behalf of the CSRL family, I would like to say a big Thank You.

Warm regards,

**Nripen Bharali**
Director General

# Message from Board of Directors

We are committed to be the part of the noble mission of bringing little more happiness in the lives of people and making our world a better place to live.

***Mr. Santosh Kumar***
*Chairman CSRL*
*Retd. Director (Projects),*
*GAIL India Ltd.*

In a world brimming with possibilities, the simplest truths often hold the deepest meaning. Progress isn't always about leaps; sometimes, it's about small, consistent steps toward a better tomorrow.

***Ms Meenakshi Shahi***
*Director- Business Development/*
*Marketing & Communication*

Life is a profound journey of purpose and resilience—where every challenge is an opportunity to grow, every setback a lesson to learn. Embracing each moment with gratitude, nurturing kindness in heart and embracing steadfast commitment in all our actions can lead to a meaningful impact.

***Mr. N.K. Bharali***
*Director General,CSRL*
*Retd. Director (HR), OIL India Ltd.*

Find Purpose. The means will follow" - this powerful quote of Mahatma Gandhi is what I recall when I think of Shishir Shahi ji. During my 14 years of close association with CSRL, I hv seen Shahi ji's vision of transforming the lives of underprivileged yet studious students come to fruition, through access to quality education. Wishing CSRL many more milestones in the years to come.

***Mr. S. Ravishankar***
*Secretary, CSRL, Chief Executive Officer,*
*Alethe Consulting , New Delhi*

Being a socially responsible citizen is not merely a label; it is a commitment to action. It is about recognizing our interconnectedness and understanding that our choices have consequences. Striving to live with compassion, integrity, and a deep respect for all beings and the planet we share.

***Mr. Krishnamurti Singh***
*Director-Operations*

Celebrating another year of challenge and excellence, CSRL continues to lead the way in fostering groundbreaking research and transforming lives. We are proud of the achievements highlighted in this publication and look forward to continued success together.

***Prof. Kajari Mukherjee***
*Associate Professor, IIM Indore*
*Founder Member - CSRL*

Education is the most powerful weapon which you can use to charge the world " said Nelson Mandela. CSRL is exactly doing this. I feel very fortunate to be associated with it. Developing young skilled leaders dedicated to critical thinking and creative problem solving is the aim of CSRL.

***Mr. A.M.K Sinha***
*Retd. Director (B.D),*
*Indian Oil Corporation*

Devoted spirited group of service providers in Partnership with-the aspiring and challenging youth for a brighter India.

***Dr. Ravishwar Pd. Singh***
*Formerly National Coordinator USAID,*
*Country Repersentative, USAID/MOEF*
*Country Director INDIA FXQINT Geneva,*
*Founder Member - CSRL*

***Mr. P.J. Bahadur***
*CEO, Omam Consultants*
*Founder Member - CSRL*

Congratulations to the CSRL team for their outstanding work in serving the underprivileged students and helping them to get admission in the top engineering and medical colleges of India through the Super 30 initiative. Your dedication and efforts are truly commendable. Keep up the great work!

***Mr. R.G. Rajan***
*Ex-Chairman, RCF & PDIL*

CSRL has helped students by bringing out its hidden capabilities.

***Mr. Binod Kumar***
*Retd.Director (Commercial),*
*SAIL*

Reflecting on our shared journey, I'm filled with pride for CSRL's steadfast commitment to community impact. My dear friend and Founder's vision continues to guide us toward new horizons of service and excellence.

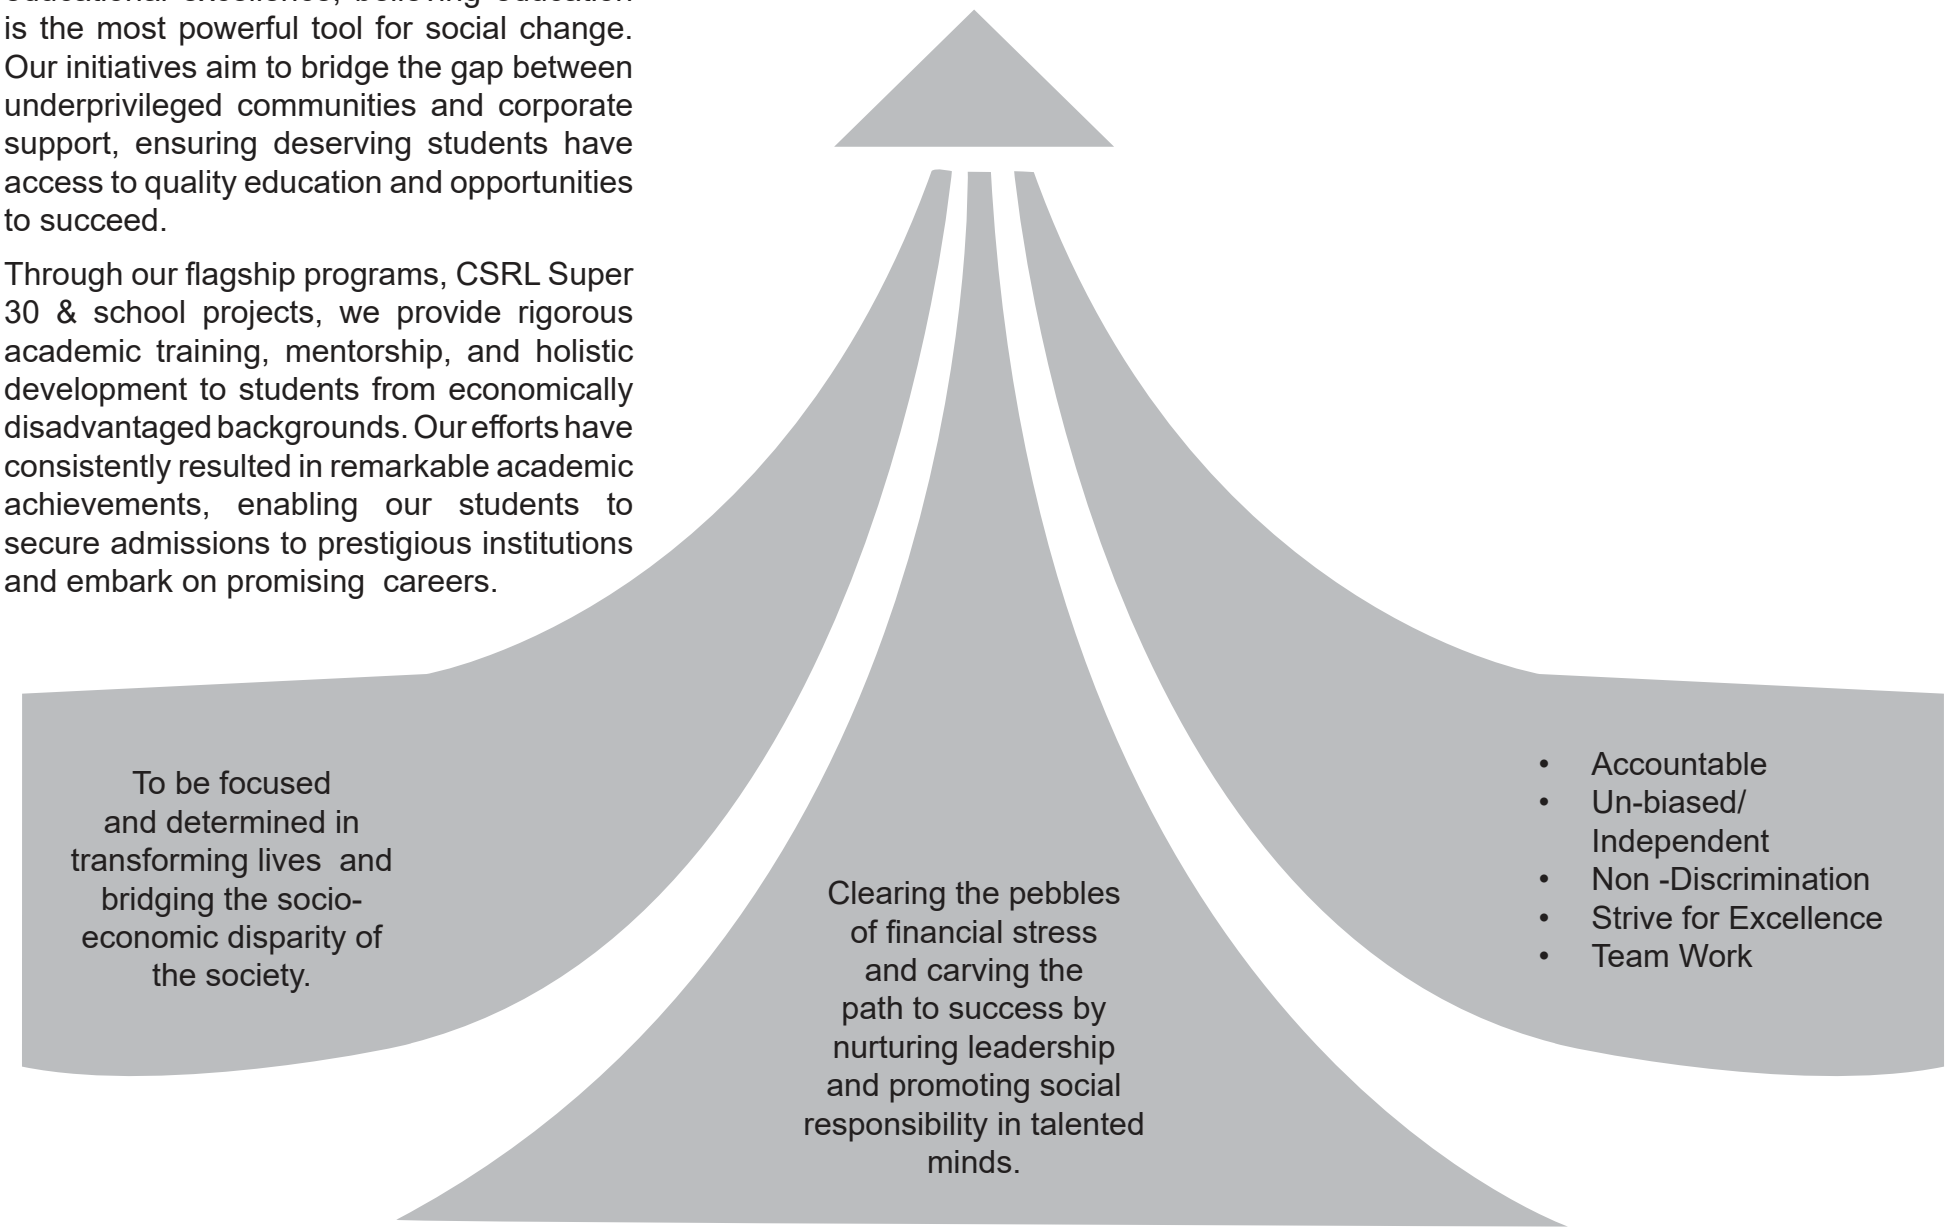

***Mr. Prabhat Singh***
*Chairman, India Gas Solutions Pvt.Ltd.*

# About CSRL

CSRL has been at the forefront of promoting educational excellence, believing education is the most powerful tool for social change. Our initiatives aim to bridge the gap between underprivileged communities and corporate support, ensuring deserving students have access to quality education and opportunities to succeed.

Through our flagship programs, CSRL Super 30 & school projects, we provide rigorous academic training, mentorship, and holistic development to students from economically disadvantaged backgrounds. Our efforts have consistently resulted in remarkable academic achievements, enabling our students to secure admissions to prestigious institutions and embark on promising careers.

# Stories of Success & Impact

STAR
DUST

**Rajat Sarkar**
ONGC Super 30, Agartala
Batch 2023-24
ISM Dhanbad

Growing up in small village of Batadhala in Tripura with a family where my father, a small-scale farmer, was battling blood cancer, and my mother was a homemaker, life was full of challenges. Despite our financial struggles, my parents always supported my education. After completing my 12th from Jawahar Navodaya Vidyalaya, I decided to take a leap of faith and join the ONGC Super 30 program in Agartala. It wasn't an easy decision to take a drop year, but my father stood by me, encouraging me to pursue my dreams against all odds.

Life at ONGC Super 30 was intense yet transformative. The dedicated faculty and structured environment pushed me to give my best every single day. I learned not only academics but also life lessons that shaped me into who I am today. With the unwavering support of my mentors and peers, I cleared JEE Main and Advanced, securing admission to IIT (ISM) Dhanbad in Mining Machinery Engineering. Looking back, I feel proud of how far I've come, and I am deeply grateful to the ONGC Super 30 program for giving me the platform to turn my dreams into reality.

**Aditya Kumar**
Petronet Super 30, Jammu
Batch 2023-24
IIT Patna | Civil Engineering

I come from a lower-middle-class family with five members—my father, mother, grandmother, younger sister, and me. My father, a tailor, is the sole breadwinner, while my mother manages the household. After completing my 12th from Jawahar Navodaya Vidyalaya, I aspired to pursue engineering, but financial constraints made private coaching impossible. That's when a friend told me about the Petronet Jammu Super 30-Reasi program by CSRL. I appeared for the entrance test, and to my immense joy, I was selected.

The experience at Super 30 was life-changing. From expert teachers to structured study material, daily assignments, mock tests, and computer-based exams, everything was designed to help us excel. The supportive environment and nutritious food ensured we could focus entirely on our studies. With this guidance, I cracked JEE Advanced 2024 and secured admission to IIT Patna in Civil Engineering. Even during difficult times when I couldn't afford exam fees, my teachers supported me. Today, I feel fortunate to be part of this transformative program, which has helped me move closer to breaking the cycle of poverty in my family. I am deeply grateful to CSRL, Petronet, and The Indian Army for this life-changing opportunity and urge everyone to spread the word about this incredible initiative.

2024
BORGANG METAL STORE

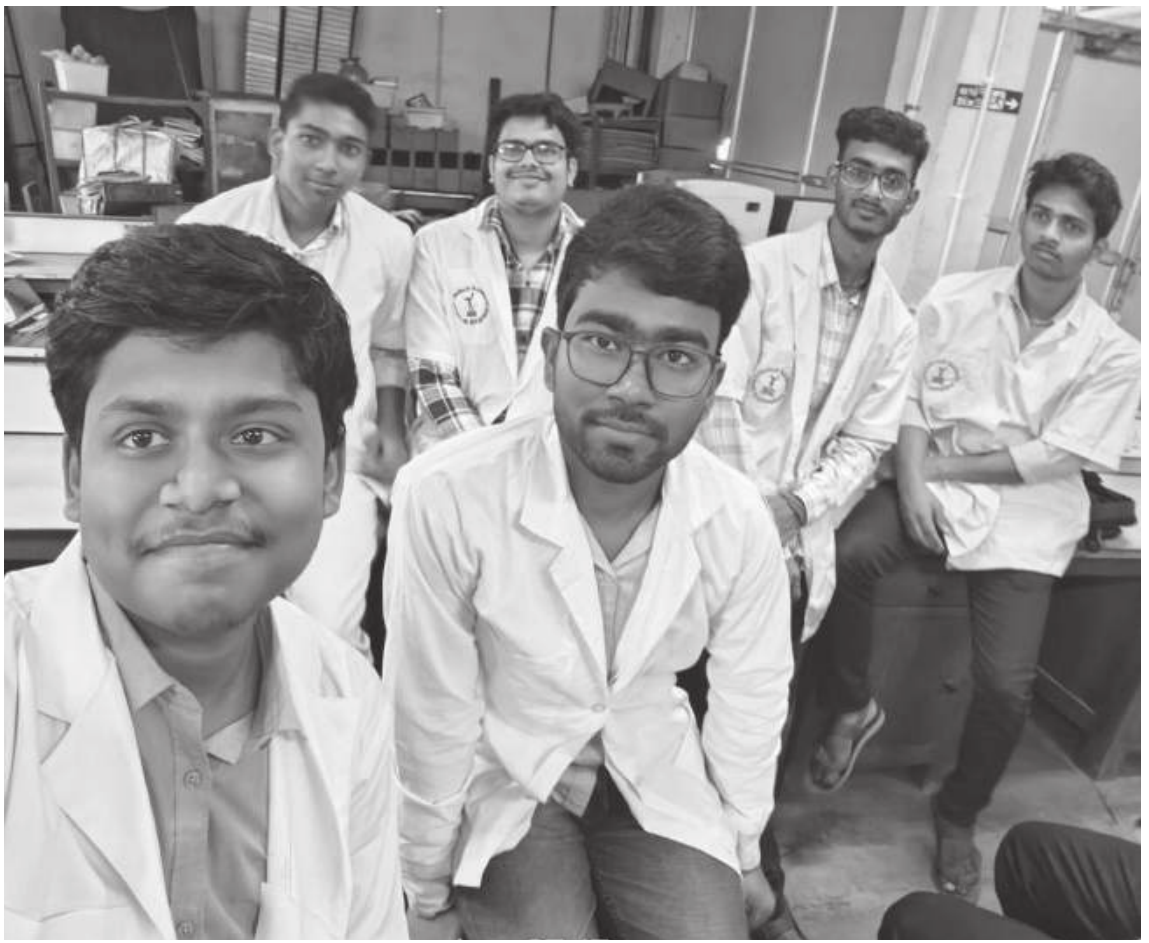

**Nilakantha Barman**
Oil Pragyan Super 30, Jorhat
Batch : 2023-24
IPGME&R and SSKM Hospital, Kolkata

I come from a lower-middle-class family with seven siblings, our father, a fisherman, managed to provide for our education despite the financial challenges. After completing my Higher Secondary with good grades, I aspired to pursue a career in medical science.

Initially, I attempted to prepare for NEET through self-study, but without proper guidance, I couldn't succeed. Given our financial situation and my siblings still studying, affording private coaching was not an option. That's when I learned about OIL Pragyan Super 30 under CSRL.

Passing the Super 30 entrance exam and securing a place in this esteemed program was a blessing. The free mentorship and structured coaching provided by OIL Pragyan Super 30 were crucial in helping me achieve a score of 646 out of 720 in NEET 2024.

I cannot express enough gratitude for the exceptional coaching and unwavering support I received. The lessons learned and the confidence gained from this institute will always drive me to tackle future challenges with determination. I am proud to be a part of OIL Pragyan Super 30 and immensely thankful for their commitment to student success.

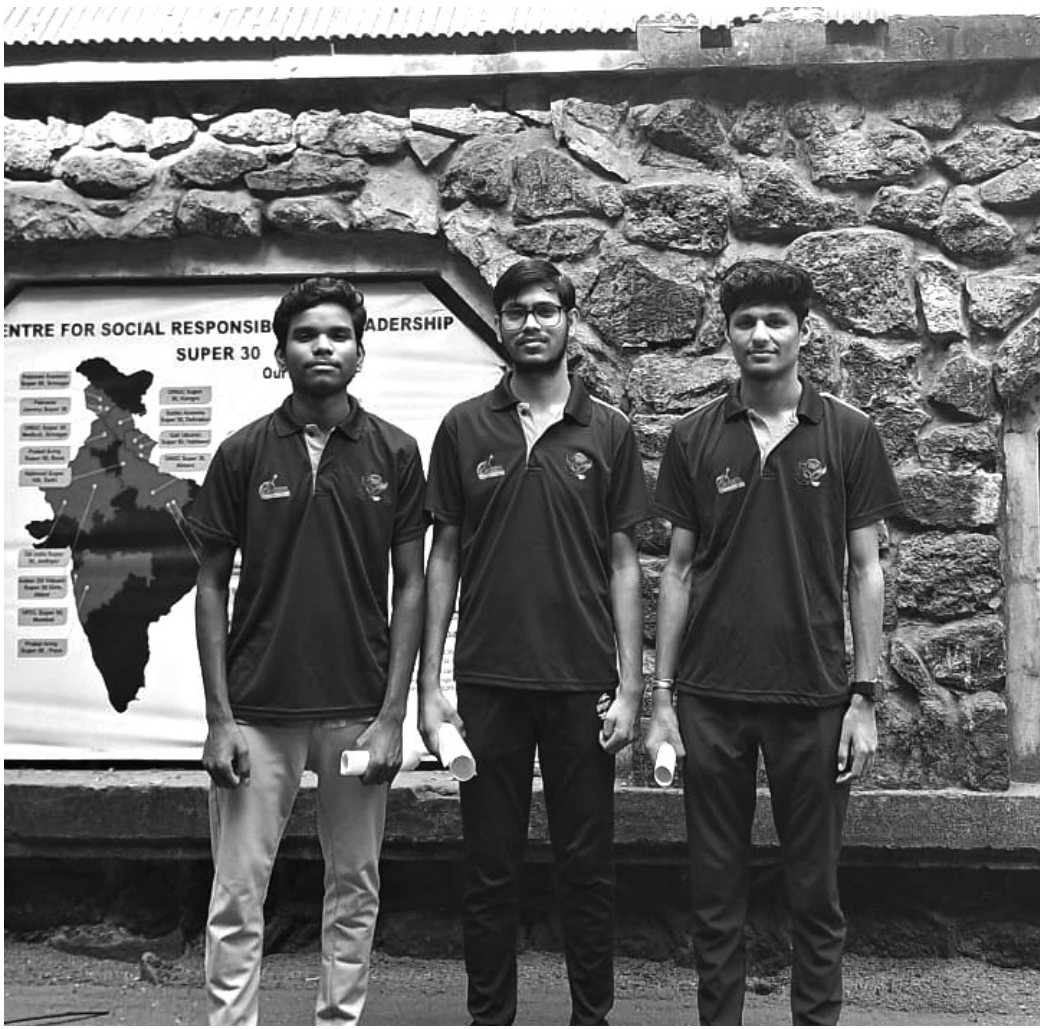

**Kapil Singh Maravi**
HPCL Super 50, Mumbai
Batch 2023-24
NIT Raipur
Metallurgical and Materials Engineering

I come from a humble family in Chhattisgarh. My father, Mr. Bheem Singh Maravi, is a farmer, and my mother, Mrs. Rohani Bai, takes care of our home. Despite their limited means, my parents have always been hopeful and supportive. However, financial struggles often made higher education seem like an impossible dream.

My first attempt at JEE Mains was disheartening, with just 3 percentile. It was a moment of despair, but my father's words, "Don't give up easily; the right practice will make you perfect one day," inspired me to persevere. I combined smart work with hard work and kept striving to prove myself.

Coaching for JEE was essential but beyond our means. Thankfully, I was blessed with the opportunity to join HPCL Super 50, Mumbai, which became the turning point in my life. The program provided rigorous academic training, discipline, and unwavering support that reignited my confidence and prepared me for success.

Today, with the guidance of HPCL Super 50 and CSRL Super 30, I have secured admission to NIT Raipur. These programs have transformed not just my life but also the lives of countless underprivileged youth, offering us hope and a path to achieve our dreams. I am deeply grateful for this life-changing opportunity.

**Chetna**
Prabal Army Super 50, Pune
Batch : 2022-23
Delhi | Army College of Medical Sciences

I enrolled at CSRL Pune with the goal of clearing NEET and sharing many ambitions with my parents. It was my first time living away from home to a completely different and new atmosphere, which made me nervous enough to reconsider taking this step. However, the support and family-like environment given by CSRL eased all of my confusion and anxiety. I was able to crack NEET thanks to the assistance and support of CSRL and my family.

CSRL became a safe haven for me since it not only provided a safe and accommodating environment, but it also fostered a spirit of healthy competitiveness among peers. They gave the best facilities with the best teachers.

They provided best facilities, including the teachers, study materials, and infrastructure. Teachers were constantly there to motivate us and clear our doubts.

With each level of preparation and consistent testing, I was able to assess my preparation and identify areas for improvement.

I want to express my heartfelt appreciation for the efforts of my parents, teachers, and friends. Without their love and support, this accomplishment would not have been possible. I miss everyone who was there for the entire year of hard effort.

**Jishan Ali**
GAIL Utkarsh Super 50, Haldwani
Batch 2023-24
IIT Bombay
Environmental Science & Engineering

Clearing the Joint Entrance Exam (JEE) and securing a place in IIT Bombay is a dream come true for me. It's a testament to my hard work, dedication, and perseverance. I studied in Sainik School Ghorakhal from class 6th to 10th then due to covid and our financial condition I took withdrawal from Sainik School Ghorakhal. I did my class 12th from a local private school Holy Ganges Public School.

After my class 12th I joined CSRL (GAIL Utkarsh super 50, Haldwani). From there I started preparing for JEE. I was a very underconfident guy and never thought of myself as some intelligent one. But I always tried very hard . In the start of the preparation journey I used to be the most confused guy in the room but with help of the teachers and staff at my coaching and with the support of my family in the end of the journey I was the one with most clarity.

We always expect thing to be ideal to work but believe me none of the day was an ideal day during preparation. I just believed everyday that I am the best and I am going to do my best .With this thought only I could become better or good .With a strong work ethic and unwavering commitment to my goals, I have overcome obstacles and achieved success.

Thanks to the teachers and family for supporting me. And special thanks to my mother for giving a foundation to my education. Through my experience, I hope to inspire and motivate others to chase their dreams and never give up on their aspiration.

**Nang Anika Chowhin**
OIL Pragyan Super 30, Guwahati
Batch : 2022-23
IIT Guwahati | Bioscience & Bioengineering

I come from a humble family background, where my father works as a farmer and my mother is a homemaker. Money was always tight but my parents never allowed to hinder my dreams and supported my schooling. My early education took place at Jawahar Navodaya Vidyalaya, Tinsukia. Upon completing my schooling, I found myself at a crossroads, unsure of my next steps. With our family's livelihood dependent solely on agriculture, it was a financial challenge for my parents to afford private coaching and continue supporting my education.

I decided to take the CSRL Super 30 entrance exam. It was my hard work that I was accepted. CSRL has been instrumental in supporting and facilitating my dreams. The dedicated faculty members provide personalized attention to each student, and the concept of peer learning has proven invaluable. Being surrounded by so many bright minds, all striving for a common goal, was an enriching experience.

CSRL has truly provided a platform for students like myself to pursue their aspirations. I am deeply grateful to CSRL Super 30, the Guwahati centre, the faculty members, and the Project Manager for their unwavering support and encouragement throughout the program. CSRL has not only shaped us academically but also instilled in us the values of humanity. I am honored to be a part of CSRL. I am grateful for that one decision of taking CSRL entrance exam, I now envision myself to be the pillar of support for my family in years to come.

**Malati Das**
Oil Pragyan Super 30, Guwahati
Batch : 2022-23
IIT Bhilai | Mechanical Engineering

I grew up in a nuclear family with my mother and two sisters. Due to our father's absence from an early age, my mother provided for us both financially and emotionally. It was her hard work and resilience that inspired us to pursue our aspirations. I completed my schooling at Jawahar Navodaya Vidyalaya, Baksa. During this period, I came across the opportunity for the CSRL Super 30 entrance exam. I applied, hoping to further my education.

My hard work and fortune resulted in my selection to the CSRL Super 30 program, marking the beginning of a transformative journey towards my goals. The quality of education and unwavering support exceeded my expectations, instilling in me the confidence to aim higher, even towards exams like the JEE Mains and Advanced. CSRL Super 30 taught me a vital lesson that talent surpasses boundaries, and with focused hard work, one can achieve anything. I owe thanks to CSRL, OIL Pragyan and regards to our Administrative Mentor, Nobagata Das Sir, I realized that no dream is out of reach.

Today, I proudly consider myself a part of the CSRL family. Their belief in me and constant encouragement have not only shaped my academic journey but also instilled in me a sense of purpose and determination. I now have the means to support my mother and pave the way for my sisters to pursue their dreams.

**Priyanka Mahawar**
OIL Pragyan Super 30, Jodhpur
Batch : 2018-19
IIT BHU | Mining Engineering

I completed my schooling with flying colours from Rajasthan. I always dreamt of being an engineer and studying at IIT. But dreaming about getting an IIT with belonging to a middle class family with my father being a sales person and my being a teacher seemed difficult. For clearing exams, I needed adequate resources to join a private coaching or training institute but I could not afford it. But OIL Pragyan Super 30 Jodhpur brought hopes to our lives. It brought me closer to my dream of studying at IIT. Those 11 months of residential coaching were the most memorable day of my life where I learnt and gained a lot of experiences. The facilities, environment and teachers ensured that we remain motivated and focussed. My peers were also supportive. All these things helped me in achieving my goal and I got admission in IIT BHU in Mining Engineering Stream. And today I am going to join Vedanta as a mining engineering. Lots of things in life can just change with just one opportunity .
I am thankful to OIL Pragyan and CSRL for providing that life changing opportunity.

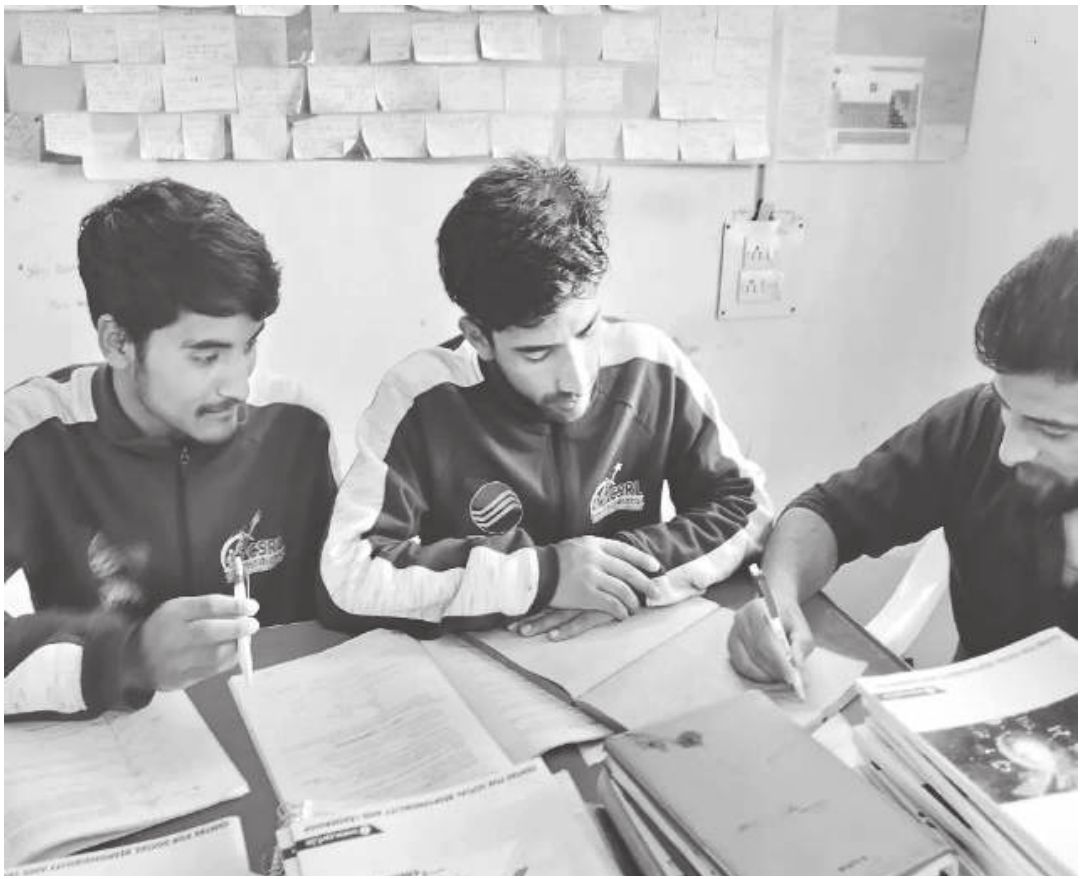

**Mohammad Anize**
Petronet Kashmir Super 50, Srinagar
Batch : 2022-23
IIT Guwahati | Civil Engineering

I am from Kashmir, and agriculture is my family's main source of income. After finishing my 12th grade exams, I discovered about the Kashmir Super 30 from a friend of mine. I did my own research on it and chose to take the entrance exam myself. I passed the Kashmir Super 50 exam and the interview, and was chosen for 11 months of residential training.

During my 11 months of residential tutoring, I learned not just about JEE but also important life values. The atmosphere at the centre was welcoming and encouraging, with helpful teachers and staff. We were treated with the best amenities and management. The time at CSRL prompted me to think on my life and objectives.

I realized that belonging to land of paradise but also transgression, many students are unable to pursue their dreams owing to a lack of resources, and that futures of young people can easily be ruined. However, I passed the JEE exams and was enrolled to IIT Guwahati, where I am now pursuing a B.Tech degree. I am extremely appreciative for CSRL's support, guidance, and believe in me. They accomplished what appeared to be an impossible task.

**Sonam Lhamu**
OIL Pragyan Super 30, Itanagar
Batch : 2022-23
IIT Patna | Mechanical Engineering

I am Sonam Lhamu, a student enrolled in the preparatory course for B. Tech 2023 at IIT Patna. I come from a family of six, my parents, two sisters, one brother, and me. Our primary source of income is farming. It was hard on my parents to provide for 4 children but all my siblings are currently pursuing their studies, but on a tight budget. I hail from the Monpa tribe of Arunachal Pradesh, residing in the West Kameng district of the state where educational opportunities are available but literacy rate is still low. Higher secondary education was very poor, with no proper guidance for competitive tests.

Despite the financial struggles, I kept believing in me, took a drop year and worked hard to attend coaching classes and pursue my desired college education, all thanks to Super30. The only reason I'm at IITP is because I received the opportunity to study at Super 30.

Super 30 was the source of light during that period of time and I am grateful that they gave me this life changing opportunity. Not only did it provide free education but also guidance to enter the new world. It has encouraged and inspired me to overcome the barriers. It has given me strength to stand on my feet and support my family after studies. It has taught me friendship and solidarity. It has taught me that hard work overcomes all obstacles.
